

# PREVENTIVE MAINTENANCE SPARE PARTS

Customer Services  
Sapastock

## RENEW YOUR ORIGINAL NON-STAINLESS STEEL CHAINS

**In order to keep your Sapastock running smoothly and to improve your production flow while keeping your costs under control, preventive maintenance is your best ally.**

Our experience has shown, that adjustment by our technicians of the original non-stainless steel chains, promotes a life span of the chains of about 10 years. While not original chains, incorrect parallelism, over-extension or over-tensioning of chains can lead to breakage.

Please note that the delivery time for a pair of chains is about 3 months.

Interested?

Ask for an offer to your contact person at Sapal or at [service@sapal.ch](mailto:service@sapal.ch) with your needs and the reference: "**C\_Sapastock\_2022**"

### BENEFITS

- Increased life span of your equipment
- Optimal support by our technicians
- Reduction of costs and delays due to a line stop
- Availability of the line preserved
