NEW

Replace your SIMATIC Multi Panel MP277 by the NEW Siemens TP1200 on your Sapal/ Kustner machines

In order to keep your machines running smoothly, improve your production flow while keeping your costs under control, preventive maintenance is your best ally.

The MP277 panel installed on your machine is no longer available, therefore we recommend you a replacement solution for this Human-Machine Interface device. The new TP1200 panel fulfill exactly the same functions and will be as user-friendly as the original version.
