

UPGRADE YOUR MACHINE

Chewing Gum / Sweets
Wrapping Machine

GET A TEAR OPEN STRIP for your DGD 0350/ DGD 0700 (CC/Chewpac)

Upgrade your machine Make life easier

By adding a tear open strip around the chewing gum package, opening becomes a breeze. Thanks to a consumer friendly cutting shape it's easy to find and grab the opening strip.

Tear tape unit

To upgrade your machine to the new pack style, a tear tape unit needs to be placed on your machine. The unit consists of a new unwinder that needs to be placed in the centre of the casting. Additionally a cutting unit is required which composes of rotating knives allowing the cutting of the tear tape together with the wrapping material.

Cutting device

Technical Data

For DGD 0350 / DGD 0700 (CC/Chewpac) machine types

Basic kit consisting of :

- Tear tape unit
- New form cutting device

Options

- Articulated arm for existing HMI

For machines still having the display integrated in the machine's casting, it will be necessary to remove the HMI and place it on an articulated arm.
