INDIVIDUAL WRAPPED SLICES

THE DCS LINE

Based on the Kustner technology, Sapal can offer you a complete line of IWS wrapping machines, from 500 to 2000 slices per minute.

Allowing all types of recipes, easy to operate and to maintain, with a very good accessibility and visibility thanks to a practical and functional layout, the DCS 0500, the DCS 1000-2 and the DCS 2000 can totally be adapted to your needs.

Offering a mirror version - with front or back exit - back transparent doors and a brand-new sliding stacker, these 3 machines are the solution to reduce your maintenance costs and improve your efficiency.

We have now in our Portfolio a brand-new version of DCS allowing 10% savings of your wrapping material, full speed splicing and a new automation platform. The DCS 1000-R stands out for offering the industry's largest range of wrap-able cheese densities, now even larger.

BENEFITS OF THE DCS LINE

- Optimum product quality
 - Strong sealing to avoid leakage
 - Precise cutting
- Highly reliable
 - Built on the  KUSTNER technology
- High efficiency and availability of the machine
 - Full speed splicing
- Suitable for a large range of recipes, flavors or ingredients
 - Large cooling capacity
- Precise dosing accuracy and homogenous shape
- Quality stacking with flexible format

SLICE ON SLICE

THE SOS

Sapal can now offer a fully automated, easy-to-use solution – the DCO 700 – designed to simplify operations while maximizing performance.

In addition, the machine is equipped with several automatic recycling stations to improve its efficiency. Thanks to its ability to handle a wide range of product dimensions, the equipment ensures quick format changeovers, allowing manufacturers to adapt rapidly to different production needs.

This flexibility, combined with high efficiency and reliability, helps optimize productivity, reduce downtime, and maintain consistent quality across all outputs.

BENEFITS OF THE SOS

- Multifformat machine
- Quick format changeover
- Up to 50 slices / stack
- Automated recycling stations
- Portable control panel

PORTIONS AND SMALL BLOCS

THE DCP LINE

Our range of 1- to 4-tracks DCP machines can meet all production volume requirements and ensure perfect sealing quality through precise folding and sealing, while the unique tear-tape design guarantees easy opening every time.

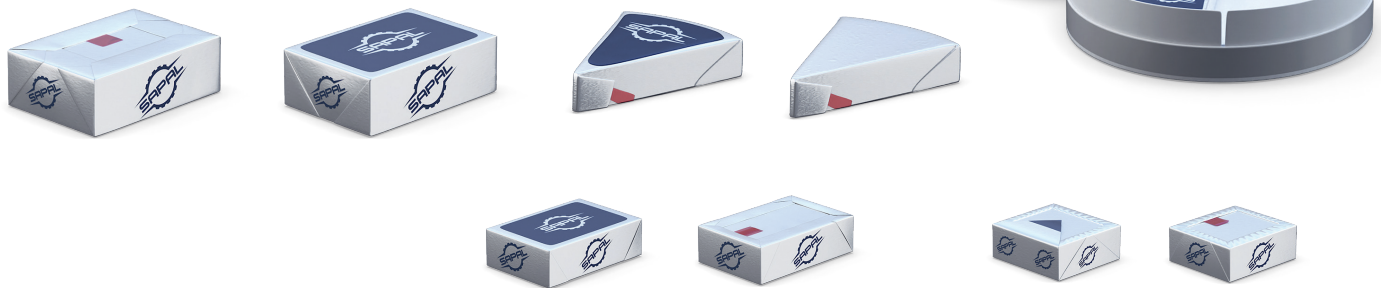

Looking for customization? Whether you need portions with or without labels, we have the ideal solution for you.

With the DCP600, experience unmatched precision with high dosing accuracy and an automatic weight adjustment option for optimal results and enjoy the flexibility of a multi-flavour option – even with added ingredients – tailored to your needs.

Built on proven technology, our systems offer outstanding reliability combined with high availability and efficiency rates to keep your operations running seamlessly. Plus, the inline design of the DCP ensures excellent accessibility to all machine areas for effortless maintenance.

For increased productivity, our machines can produce from 100 to 540 portions per minute with a single operator.

Sapal packaging machines can also wrap small blocks up to 200gr.

BENEFITS OF THE DCP LINE

- High dosing accuracy
- Practical and functional layout
- High availability & efficiency rate
- Easy operating, maintenance and cleaning
- Optimum product quality
- Robustness & durability

CHOOSE THE RIGHT PARTNER

Focus on long-term partnership that delivers results today and tomorrow.

Keeping in mind how challenging it is to differentiate your product on supermarket shelves, we create unique solutions that help you stand out at point of sale. Offering a wide range of pack styles, we can recommend a solution that will both appeal to your customers and help you maintain effective production.

Sapal is the only independent provider of packaging solutions for all processed cheese formats – portions, small blocks, individually wrapped slices and slice on slice.

BENEFITS

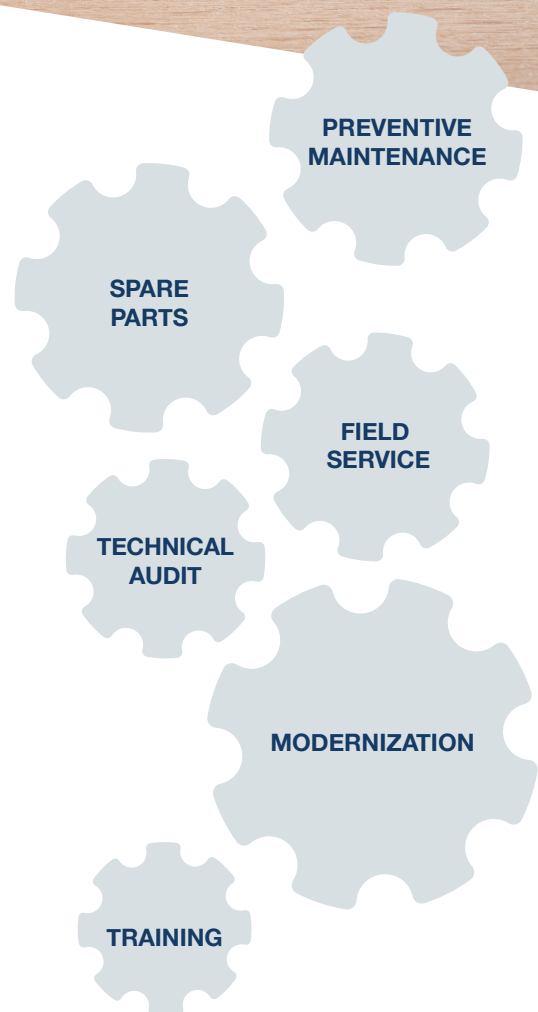

- Brand differentiation with a premium pack style
- Short delivery time of spare parts
- Worldwide sales network and extensive after-sales support
- Whole range of high-speed machines with long lifecycle
- Optimized changeover time
- Fast return on investment

For specific inquiries please ask for additional information or speak directly to a sales representative.

SAFE-PROOF YOUR PRODUCTION

Our comprehensive portfolio of services tailored to your specific needs includes Preventive Maintenance, Modernization, Spare Parts, Field Service, Technical Audit and Training for your employees. Everything has been designed for a single purpose: to assist you in achieving maximum output and minimum downtime for your Sapal and former Kustner packaging machines. Additionally, we can provide a refurbishment service for your used machines. This means we can purchase, refurbish and sell your machines, providing an economic alternative for your investment.
